

Telehealth for Individuals with IDD on the Mi Via & Medically Fragile Waivers

The Developmental Disabilities Supports Division (DDSD) of the Health Care Authority (HCA) is now partnering with StationMD to provide telemedicine services to individuals with intellectual and/or developmental disabilities (IDD) in New Mexico. Individuals receiving home and community-based services through the Mi Via and Medically Fragile Waivers can enroll and HCA covers the cost. Anyone on the Mi Via or Medically Fragile Waiver who enrolls for StationMD is able to connect with a doctor 24/7 for any medical concern.

Who is StationMD?

StationMD is a telehealth company dedicated to serving individuals with IDD. All StationMD clinicians are board-certified and specially trained to treat individuals with IDD. Clinicians are available 24/7 via telemedicine for urgent and non-urgent medical matters. StationMD enables individuals with IDD faster access to high-quality care and improves quality of life for individuals and those who care for them.

Why Use StationMD?

24/7 Access to Care

StationMD clinicians are available around the clock, 365 days a year.

Improves Health Outcomes

StationMD clinicians have performed more than 100,000 telemedicine visits with individuals with IDD.

Reduces Expenses & Stress on Caregivers

"With StationMD's dramatic reductions in ER use, agencies and their staff enjoy tremendous reductions in overtime expense and stress."
